**ABOUT US**

Arontech Smart Engineering Ventures is a professionally managed engineering firm delivering reliable industrial solutions with a strong focus on fabrication, erection, and utility piping services. We cater to a wide range of industrial sectors, supporting clients with technically sound, safe, and execution-driven engineering solutions.

Our expertise includes the fabrication and erection of structural systems such as PEB buildings, mezzanine floors, industrial structures, and customized MS/SS components. Backed by skilled manpower and systematic planning, we ensure every project meets defined quality standards, functional requirements, and site-specific conditions.

With a detail-oriented approach and commitment to excellence, we support clients throughout the project lifecycle—from understanding technical requirements to final installation and commissioning. Our emphasis on safety, timely execution, and long-term reliability enables us to build trusted partnerships and deliver consistent value to our clients.

## MISSION

To deliver high-quality engineering, fabrication, and utility solutions through safe practices, technical expertise, and disciplined execution—adding long-term value to our clients' industrial operations.

## VISION

To become a trusted engineering partner for industries by consistently delivering reliable solutions, embracing innovation, and maintaining uncompromising standards of quality and safety.

## CORE VALUES

### Quality Excellence

Commitment to durable, compliant, and reliable work

### Safety First

Zero-compromise approach to workplace and site safety

### Integrity

Transparent processes and honest execution

### Technical Precision

Accuracy in fabrication, erection, and utilities

### Accountability

Ownership at every stage of the project

## WHY CHOOSE US?

### ENGINEERING EXPERTISE

Strong technical understanding backed by practical industrial execution.

### QUALITY-DRIVEN APPROACH

Strict adherence to approved drawings, specifications, and safety standards.

### END-TO-END EXECUTION SUPPORT

Seamless coordination from fabrication to on-site erection and installation.

### SKILLED WORKFORCE

Experienced technicians, fabricators, and supervisors ensuring precision work.

### TIMELY DELIVERY

Planned execution schedules focused on minimizing downtime and delays.

### CLIENT-CENTRIC EXECUTION

Flexible solutions tailored to site conditions and project requirements.

# FABRICATION & ERECTION

We deliver precision-driven fabrication and erection solutions for industrial structures, ensuring strength, safety, and long-term performance across diverse applications.

PEB STRUCTURES

MEZZANINE FLOORS

INDUSTRIAL STRUCTURES

HEAVY FABRICATION

ON-SITE ERECTION

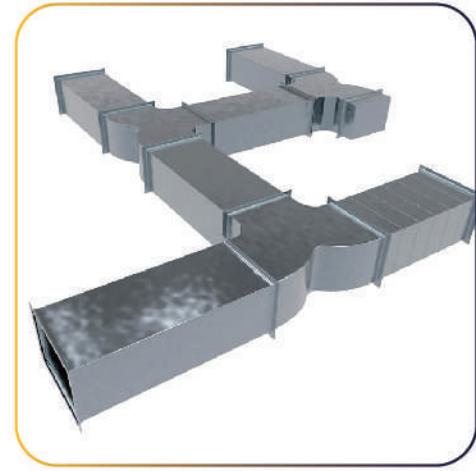

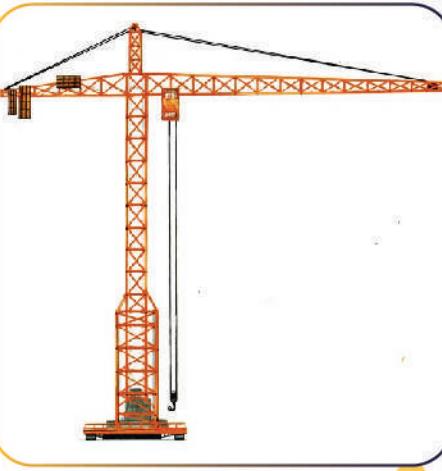

# FABRICATED INDUSTRIAL COMPONENTS

We manufacture and supply customized MS and SS fabricated components designed to meet specific industrial handling, storage, and operational requirements.

- INDUSTRIAL TROLLEYS
- BINS & BASKETS
- MS / SS PALLETS

- ROLLER CONVEYORS
- CRANE STRUCTURES
- CANOPIES & DUCTING

# UTILITY PIPING SYSTEMS

We provide reliable and efficient utility piping solutions designed for safe distribution of air and water across industrial facilities.

## AIR LINE SYSTEMS

### ➤ Aluminium Pipelines

### ➤ GI Pipelines

### ➤ MS Pipelines

## WATER LINE SYSTEMS

### ➤ MS Pipelines

### ➤ SS Pipelines

### ➤ GI Pipelines

### ➤ PPR Pipelines

### ➤ PVC / UPVC Pipelines

### ➤ CS Pipeline Work

**Design, installation, and execution of  
industrial air and water piping systems  
with safety and precision.**

# GAS DISTRIBUTION & FIRE SAFETY SYSTEMS

We execute safe and compliant gas pipeline installations and complete fire hydrant systems designed to meet industrial safety and regulatory standards.

## GAS LINE SYSTEMS

- PNG / LPG Lines
- Oxygen / Nitrogen / CO<sub>2</sub>
- MS Seamless Pipes
- SS Seamless Pipes
- CS Seamless Pipes

## FIRE HYDRANT SOLUTIONS

- Complete Hydrant System
- Piping & Accessories
- Installation & Testing

**Safe execution of industrial gas pipelines and complete fire hydrant systems as per safety norms.**

## Let's Build Reliable Industrial Solutions Together

We welcome enquiries, project discussions, and collaboration opportunities. Reach out to us for fabrication, erection, and utility piping service requirements.
